

The Worcester Greenstar 12Ri - 24Ri

Our Greenstar Ri boiler is a compact, wall mounted boiler that is perfect for small and medium sized homes. It is also perfect for replacing a boiler in an existing traditional heating system. Small enough to be installed in a standard kitchen cupboard, the boiler can be used with our range of high efficiency Greenstore cylinders for a complete Worcester system solution for your home.

Why install a Greenstar Ri?

- Fits in a standard kitchen cupboard
- Simple boiler control
- Suitable for homes where the heating system includes a hot water storage cylinder
- Frost protection is also included, reducing frost risk if installed in a garage or loft
- Can be used with Greenskies solar panels for energy and cost savings

Which? Best Buy

Our Greenstar gas boilers have received Which? Best Buy Awards for 7 years running

7 Year Guarantee

Up to 7 years guarantee on all Worcester gas boilers when fitted with a Greenstar System Filter

Royal Warrant

We are honoured to have received a Royal Warrant in recognition of supplying goods to Her Majesty The Queen

BOSCH

Invented for life

Part of the Bosch Group

Boiler dimensions

The Greenstar Ri range will fit inside your wall-mounted kitchen cupboards.

Know your system

Regular boilers (sometimes known as traditional, conventional or heat only boilers) are ideally suited to homes that already have a traditional heating and hot water system which is linked to a separate hot water cylinder.
